Dear Jennifer and Richard,

It turns out the EPA Docket Center provided the wrong docket number for the Uranium FR Notice. While the document is posted and it points to the correct docket number, we have to re-issue the FR notice with the correct docket number. Even though you previously approved these, in order to adhere to OPA's policies, we are asking that you please sign the memo one more time, so that we can work with OP to reissue the FR Notice with the correct docket number. Sorry about the headache—the docket center seems to be experiencing some quality issues lately.

Thanks and let us know if you need further information.

Tina
